1 Introduction

AdWealth Network is a digitally-driven platform designed to enable users to earn income through an activity-based model. By engaging in daily tasks, referring new participants, and building an organized team network, users can generate earnings directly tied to their performance and involvement. Importantly, earnings vary based on user activity; this program does not guarantee fixed returns or dividends.
Instead, it rewards consistent participation annd network growth, reflecting a dynamic and merit-based approach to digital income generation.

2 Registration Packages

To participate in AdWealth Network, users must select one of the **predefined registration packages**. The minimum entry is fixed at **USDT 10,** with no allowance for **packages below this threshold.**

Users have the flexibility to begin at any **package level and may upgrade** at any time to enhance earning potential.
